Reclaim System to be Down Daily 7:00 AM – 5:00 PM

OCOEE, FLORIDA – Beginning May 12, 2011, due to the ongoing lack of rainfall and resulting high usage, availability of the City of Ocoee's reclaim water may be subject to interruption. Until weather conditions improve, the reclaim system will be taken offline from 7:00 AM – 5:00 PM daily. If this is not sufficient to replenish supply, additional downtime will be required.

If you have any questions or would like to check on reclaim availability, please contact the Utilities Department at (407) 905-3159. If you are experiencing little to no water pressure in your irrigation system, please contact the Utilities Department before contacting your irrigation specialist. If necessary, the City will send a service technician to your home to check your reclaim water at the meter at no charge.
