## **Peach Lake Manor Water Main Replacement Project**

**Ocoee, Florida** – The construction of the Peach Lake Manor Water Main

Replacement Project will begin this week and last until the end of November. The purpose of the construction is to install new water mains and water services to all the homes in the surrounding area. Construction will be located at Lady Avenue between Wurst Road and Nicole Boulevard.

The City's Utilities Department requests that residents be cautious of workers, equipment and material throughout the construction phase of the project. Residents and homeowners who would like to ask questions or review project plans concerning the Peach Lake Manor Water Main Replacement Project, can stop by the Utilities Administration office at 1800 A.D. Mims Road, directly across from the Jim Beech Recreation Center. Utilities staff will also be available by phone at (407) 905-3159.

Free notary service is available through the Utilities Department or at City Hall for homeowners who still need to have their Letter of Agreement notarized. Additional copies of the Agreement are available at the Utilities Administration office.
