If any of the questions above have a negative answer then the formal inspection and written punch list will not take place. The construction of the development infrastructure is not complete and/or been approved by other reviewing/approving agencies.

The attached pages are copies of the written punch lists from each Departments inspection of your project. All items need to be completed prior to requesting a follow up inspection for project completion. Only two inspections of your project will be made – Substantial and Final. Partial inspections will not be performed.

Any damage to the project that occurs between inspections will be required to be repaired prior to Final Inspection.
