

CITY OF OCOEE
CONCURRENCY MANAGEMENT APPLICATION
FOR A TRANSPORTATION CAPACITY RESERVATION CERTIFICATE

The purpose of the City of Ocoee's Concurrency Management System (CMS) is to ensure the availability of public facilities and services for new development. The concurrency requirement is a provision in the Growth Management Act that gives local governments the authority to manage growth effectively. Essentially, the concurrency requirement means that needed public facilities must be in place or planned concurrent with the impacts of new growth. This provision ensures that all users of public facilities will be guaranteed specific levels of service (LOS) and that new development will not degrade those levels of service.

The City of Ocoee's Comprehensive Plan contains the LOS standards and policies for meeting the state concurrency requirements. The Comprehensive Plan also contains the goals, objectives and policies which will direct future development in the City of Ocoee. The Land Development Code (LDC) is the implementing mechanism for the Comprehensive Plan. This document contains all the rules, standards and criteria which govern all land development. The LDC also includes the adopted procedures for the CMS, to be known as Article IX of the LDC.

A concurrency evaluation is required for all new development and redevelopment that has an impact on the LOS of public facilities and services unless exempted specifically. Refer to Article IX of the LDC to ascertain if your plans need a concurrency evaluation.

An initial determination of concurrency must be performed by the City of Ocoee prior to approval of a Preliminary Site Plan or Preliminary Subdivision Plan. A Preliminary Certificate of Concurrency will then be issued setting forth the infrastructure status. This Preliminary Certificate of Concurrency is non-binding. A Final Certificate of Concurrency may be applied for anytime after Preliminary Plan approval. The Final Certificate of Concurrency is binding for the time periods indicated on the certificate. Subject to the extension provisions set forth below, the transportation capacity reservation is valid for ninety (90) days.

A Final Certificate of Concurrency shall evidence satisfaction of all concurrency requirements with respect to the issuance of the building permits related thereto, subject to the terms and conditions of such certificate. In the event all or a portion of the Final Certificate of Concurrency has expired, it will be necessary to reapply for a new certificate with respect to portions of such initial Final Certificate of Concurrency which have expired. The traffic circulation portion may be renewed once for an additional 90 days with the issuance of a new Final Certificate of Concurrency.

After that, the term of the Final Certificate of Concurrency shall only be extended for one (1), two (2), or three (3) years with respect to traffic circulation by obtaining a Transportation Capacity Reservation Certificate (TCRC) pursuant to Section 9-7 of Article IX of the Land Development Code. You must apply for a TCRC within seventy (70) days from the date of your transportation reservation (or any extension thereof) under your Final Certificate of Concurrency.

If you have any questions or would like to purchase a copy of Article IX, please call the City of Ocoee's Development Services Department at (407) 905-3157.

AUTHORIZED SIGNATURE:

My signature on this application as owner, or as the authorized agent, acknowledges that I understand the following:

- A Final Certificate of Concurrency (FCC) encumbers transportation capacity for ninety (90) days. Within the 90 day period, I must obtain a one-time renewal of my FCC for traffic circulation or receive a building permit or a Transportation Capacity Reservation Certificate building permit or a Transportation Capacity Reservation Certificate (TCRC); otherwise the FCC expires for a transportation capacity. I understand that only one additional FCC (two total for each project for a total of 180 days) may be obtained before I must obtain a TCRC or a building permit and that I must apply for a TCRC by the 70th day of my 90-day transportation reservation (or any 90-day extension thereof).
- A FCC reserves both solid waste capacity and recreation capacity for one (1) year from the date of issuance of the FCC.
- A FCC reserves stormwater drainage capacity for one (1) year from the date of issuance of the FCC, subject to obtaining final engineering, if applicable, incompliance with the Land Development Code and other such stormwater drainage approvals as may be required by the Land Development Code and other such stormwater drainage approvals as may be required by the Land Development Code and other applicable laws, statutes, ordinances, rules and regulations.
- Sanitary sewer and potable water reservation capacity is done in accordance with the terms of independent developer agreements to be entered into with the City of Ocoee. A Final Certificate of Concurrency does not modify any such developer agreement.
- My building permit will not be approved if the proposed use(s), square footage and/or number of units listed on the permit application are greater than those submitted on this application and for which the Final Certificate of Concurrency (FCC) has been issued. I understand that I will need to apply for a separate FCC for any proposed use(s), square footage and/or number of units not included in my FCC.
- The City of Ocoee may require additional information in order for an accurate assessment to be conducted. I understand that the City of Ocoee cannot conduct special studies such as traffic counts on roads not regularly monitored and that I may be required to submit a traffic study obtained at my own expense. I also understand that review and approval of proposed development may be postponed for a reasonable time period in order for me to gather additional information. I also understand that proposed development may be denied approval for my failure to provide adequate information on the projected impacts created by the development.
- I acknowledge that the information contained in this application is true and correct to the best of my knowledge.

CITY OF OCOEE

Application Fees Associated with Concurrency

Preliminary Certificate of Concurrency	\$150.00
Final Certificate of Concurrency (Plus costs associated with review of traffic studies and/or additional information and special studies.)	\$250.00
Transportation Capacity Reservation Certificate	\$200.00 *
Transportation Capacity Reservation Certificate (in part to one or more parties)	\$200.00 *
Transportation Capacity Reservation Certificate (from one party to another)	\$100.00
Shift Capacity Reservation Certificate	\$250.00

* THIS IS THE APPLICATION PROCESSING FEE ONLY. TO RESERVE TRANSPORTATION CAPACITY, TRANSPORTATION CAPACITY RESERVATION FEES MUST BE PAID AS OUTLINED IN ARTICLE IX OF THE CITY OF OCOEE LAND DEVELOPMENT CODE.

** EACH TRANSFEREE MUST BE ISSUED A SEPARATE CERTIFICATE. THE REPLACEMENT OF THE ORIGINAL CERTIFICATE AND THE ISSUEANCE OF A NEW CERTIFICATE TO A SINGLE TRANSFEREE IS INCLUDED IN THE TRANSFER APPLICATION FEE. THERE IS A \$200 FEE FOR EACH ADDITIONAL CERTIFICATE. IF A TRANSFER REQUIRES MORE THAN ONE NEW CERTIFICATE TO REPLACE THE ORIGINAL, EACH CERTIFICATE BEYOND THE FIRST REQUIRES A \$200 FEE. TRANSFER OF A CERTIFICATE DOES NOT EXTEND THE EXPIRATION DATE OF THE TCRC.
