

Information for Residents with an Existing Separate Irrigation Meter

How much will it cost me to connect?

With a separate irrigation meter, 99.9% of the time there is no cost to connect to the reclaimed water system. However, if there are any unusual circumstances unbeknownst to a resident or the City, any costs incurred for the connection will be the responsibility of the resident.

Is this program mandatory?

Yes, the program is mandatory for residents that use high quality potable water as their source for irrigation. Once notified that reclaimed water is available, residents will have ninety (90) days to complete the switchover.

How will I know when to connect my irrigation system to the reclaimed water meter?

You will receive a letter in the mail that includes important dates and information for a smooth transition. If you have any questions, please contact the Utilities Department at 407-905-3159.
